FERENCE:

The Board submits for the sanction of the ernment an estimate for Rs.600/- providing for wire ncing on the northern and western sides of the lector's quarters at Hospet, excluding the por ked E, F, G, H, I, J, J' in the plan. The Bo

considers that provision of fencing for this portion is un necessary. It is reported that the portion contains pits and is unfit for cultivation and that it will not fetch an value if sold. The Board has therefore directed the Collector to retain this portion as assessed waste till there is a demand for it.

There is already wire fencing on the southern and eastern sides of the Sub-Collector's quarters. The Executive Engineer, Bellary, reports that the fencing o the two sides now proposed was not considered in 1937-38 the interest of economy probably because there is ~~wire~~ l fencing on the western side and a high mound on the northern side. The experience of the occupant has however shown that these are not sufficient to prevent cattle trespass which is causing much damage even now to the garden, flower pots, etc., and hence the necessity for the proposed wire fencing. The Executive Engineer also reports that Madras thorn hedge is not procurable a may not be a success on account of the gravelly and rock soil and scanty rains in the locality. In the circumst the Board recommends that the Government may be pleased to treat the work as absolutely essential with reference G.O. No. Ms. 1025 Public Works Department dated 24--4--3 and accord their administrative approval to the esti-

Buildings - Bellary-Hospet - Sub-Coll's residence - Provision of barbed wire fencin

From the Board of Rev. letter No. E 5883/38-5 dt 21-7-39.

To AS.

Please see the letter from the Board of Rev. on pp 1-2 C.f.

The proposal is to put up wire fencing on the northern and western sid of the compound of the Sub-Collector's reside at Hospet at an estimated cost of Rs. 600/ There is already wire fencing on the other sides. On the western side a live fen and on the northern side a hedge now exist now. But these are found to be insufficient to prevent effectively cat straying into the compound. It is report that Madras thorn hedge is not procura in the place and also that it may not success in this case as the soil is s and there is not sufficient rain in t locality. By this improvement the stan rent of the bungalow will be raised from Rs. 92 and ~~it should be~~ reckoned the average pay of the Sub Collector at Hospet below Rs. 968/- In the circum

A draft order is put up. It may be sent to Publ. (Spl) and Fin for acceptance.
